sazareishi	<i>Word coloring according to part of speech</i>
------------	--

Description

Word coloring according to part of speech

Usage

```
sazareishi(x, elem = "text", ...)
```

```
sazareishi_to_df(df, token = token, pos = pos, ...)
```

Arguments

x	character vector
elem	path to emphatic's <code>hl_vec(elem = ...)</code> . "text" or "fill".
...	Arguments passed on to sazareishi
df	data.frame
token	name for token variable
pos	name for part of speech variable
